Get To Know The Candidates For The ATV Minnesota Executive Board Election, To Be Held At Ride & Rally

The terms for three ATV
Minnesota executive board
positions expire in September:

President, First Vice President, and Secretary.

The deadline for nominations was July 31st. Nominations were made using the official ATV MN nomination form, found at atvmn.org. Four nominations were submitted:

The nominees were contacted to confirm their interest. Nominations were reviewed and verified before being placed on the ballot.

The election will be held at the 2026 ATV MN State Convention/Ride & Rally, during the General Membership Meeting on September 19th. All candidates must be nominated. During the meeting, there will be no nominations accepted from the floor, and no write-in votes will be accepted or counted. Below are the candidate profiles provided to ATV Minnesota.

Larry Folstad, Running For ATV MN President

Experience in the sport of ATVing

Like many riders, I started in the 1980s on three-wheelers, riding old logging roads, abandoned railroad grades, and informal trails. Later, I moved to Class 1 ATVs and watched dedicated trail systems take shape. Today, I ride a Class 2 side-by-side. The machines have changed dramatically over the years, but my enjoyment and passion for the sport remain high.

Experience with ATV Minnesota

Working alongside ATV Minnesota, I was one of the leaders who partnered with St. Louis and Itasca Counties to help open lower-volume county roads for ATV travel, creating vital trail connectivity. I also helped develop the policies that enabled cities to open their streets to ATVs and become ATV-friendly communities. These efforts required collaboration with local governments, clubs, and stakeholders and have helped expand responsible riding opportunities across Minnesota.

Involvement with ATV clubs

I remember the early days of the Northern Traxx ATV Club in 2001, when it was just a few informational meetings. In 2003, we incorporated as a nonprofit, and today the club has grown to nearly 400 members. Over the years, I've also helped other clubs get started, including the Carlton County Riders and the Alborn Dirt Devils, both of which have become successful, active clubs. I continue to stay involved at the local, regional, and state levels.

Reasons for seeking this office

I am seeking the office of President because I care deeply about the future of ATV MN and the sport we've all worked so hard to build. After more than 25 years of watching this organization and our trail system grow, I want to help lead the next chapter of trail building and maintenance. I also want to be actively involved in seeking additional funding through the Legislative process.

Personal qualifications that apply to the responsibilities of the office

My greatest strengths are leadership, relationship building, and the ability to bring people together to achieve common goals. My background in management and team building has provided me with decades of experience leading organizations, building consensus, and successfully guiding projects from concept to completion. For more than 25 years, I've been actively involved in the growth and evolution of the ATV sport. Having been involved in its early stages, I've seen firsthand how far we've come, and I'm passionate about helping guide its future.

Vision for the sport of ATVing

The sport of ATVing is always changing, and we need to change with it. Riders and manufacturers continue to influence where the sport is headed, and it's important that we keep up. If we don't, we'll get left behind. We need to continue improving and maintaining our trail systems, expanding responsible riding opportunities, and promoting rider education and safety. We also need to keep working with clubs, communities, land managers, local governments, and the DNR to protect and strengthen the future of our sport. Just as importantly, we need to attract the next generation of riders and volunteers. My vision is simple: keep moving the sport forward while protecting what we've all worked so hard to build.

Vision for ATV Minnesota

My vision for ATV Minnesota is to continue building a strong, unified organization that effectively represents the interests of riders, clubs, and communities across the state of Minnesota. I will accomplish this by continued advocacy in St. Paul to protect our sport at the State level. By continuing to support the established clubs as well as new clubs. I will continue to work with the DNR Leadership/Staff and the GIA program that is critical to our ATV clubs to keep things working at the local level. I will also continue to work towards a statewide director that will be available to us 24/7/365.

Perry May, Running For ATV MN President

Experience in the sport of

ATVing Purchased my first ATV in 2001 (Arctic Cat 400) to help with work around my property in Outing, Minn. Now own two Class 1 and one Class 2 ATVs. Became involved with the local club, (Over the Hills Gang) in 2008. Served as a Trail Coordinator, Vice President and Club President and now currently working as a Grant Manager. I have ridden over 50 Minnesota Grant-in-Aid (GIA) trails, and have ridden trails in Colorado and Wisconsin. I was a project manager for the creation of the Emily Outing and Emily

Blind Lake ATV Trails. I helped organize the first winter ATV rides in our area and helped implement Winter GIA. I have navigated the world of trail grants to help fund these trail projects. I have good working relationships with DNR personnel and county trail sponsors. I talk annually with members from Iowa OHV,

Wisconsin WATVA, MI-Trale (UP Michigan). I attend TZD safety conferences and I am a Minnesota representative for RideSafe.

Experience with ATV Minnesota

Served as an ATVAM Regional Director (then Region 3), served 5 years on ATV MN executive board as ATV MN 2nd VP, 1st VP, and State Director. I currently serve on the ATV MN Safety Steering Committee, the GIA Improvement Committee, and the current club representative for Over the Hills Gang ATV Club. I have testified for ATV MN bills at the state capitol, notably the ATV Master Plan, the Northwoods Regional ATV Trail Improvement grants, and changing/eliminating the tire pressure ATV definition. I was the event lead for the 2022 Ride & Rally in Fifty Lakes, and helped guide the club hosting the 2025 Ride & Roast. I have facilitated a NOHVCC Great Trails Workshop in Isle, and planned another workshop for the Nemadji area that was canceled due to Covid. I served on the MN Governors Outdoor Recreational Task Force, and I was selected as the 2019 NOHVCC Volunteer of the year. I have been a member of MMTTC, and I helped at a CRTU event in Houston, Minn. I am an active, certified ATV safety instructor and volunteered as a DNR Trail Ambassador for 12 years. I have written dozens of articles for the Minnesota Wheelin magazine and ATV MN Newsletter, along with contributing pictures. I have planned and helped facilitate GIA workshops in Bemidji and Brainerd.

Involvement with ATV Clubs

I currently am a member of five ATV MN clubs (Over the Hills Gang, Eagle Country, Woodtick Wheelers, Cuyuna Iron Range Riders, Blind Lake) and a MnUSA member, and club member of the Emily Outing Snowbirds. As a State Director, I spoke with all the clubs and tried to visit them through regional meetings once a year. I write articles for Minnesota Wheelin on the various trails I have visited. I am a member of the 13-club Northwoods Regional ATV Trail Alliance, which was named NOHVCC 2025 Club/Association of the year. I maintain many club contacts around the state.

Reasons for seeking office

I was honored to have many individuals around the state ask me to run for ATV MN President. I believe I have the necessary leadership skills, experience, and relationships to bring ATV MN to a new level. A new level of professionalism, a new level of club engagement, member engagement, manufacturer engagement, and stakeholder engagement.

Personal Qualifications that apply to the responsibilities of the office

Five years of experience on the ATV MN Executive Board, along with 4 years as a Regional Director. (Leadership, Management, Communication, Delegation) I started my career as a technical school graduate working in machining, tool & die trades, and coaching college football when possible. I continued with my education, completing a graduate degree in Manufacturing Systems Engineering. I worked for General Mills, a Fortune 500 company, for 31 years. As the Engineering Manager for an internal design & build group, I led a group of 50 employees building and installing proprietary process food equipment for General Mills, Nestle, PepsiCo, Want Want Foods, Lotte Confectionary, and Partners in Food Solutions. My work took me to 6 continents and hundreds of manufacturing sites around the world. My learnings included working with people that looked, acted and talked differently, but all continued working to common goals. I was responsible for annual department budgets of \$10 million and had input on capital programs that exceeded \$1 billion. Innovation, continuous improvement, communication, and execution were keys to success. Towards the end of my career, I was asked to manage the liquidation of assets from dozens of manufacturing sites. My learning: At some point, great ideas can have a limited shelf life, and organizations need to find closure and a path forward. I am a big believer in delegation, which not only involves more people in decision-making, but prepares the next organizational leaders.

Vision for the sport of ATVing

I would like to see the sport of motorized recreation continue outreach and education to non-members and to become a welcomed member into the world

of outdoor recreation in Minnesota. This sport will continue to evolve, with new technologies, and new riders, and it is important that we seek riding opportunities for everyone, but not necessarily all on the same trail or trail system. I believe we must do a better job of promoting our sport while accepting our responsibility for leading ATV Safety and Environmental concerns. Our trail systems must prioritize connections, and we must develop a southern Minnesota trail/OHV park plan.

Vision for ATV Minnesota

- Work to unite/re-engage ATV MN 70+ clubs / Restart regional meetings
- Succession Plan for all E-Board positions including Communications Director
- Grow membership/ Set SMART Goals (Specific, Measurable, Achievable, Relevant, Time Based)
- Prepare legislative priorities and communications plan by October for next legislative session
- Manufacturer & Dealer Relationship Building (Safety Open Houses)
- Outreach to non-ATV MN members
- Strengthening GIA Program to support Maintenance, Trail Improvements, New Trails •Embrace ATV Safety as key organizational goal (Class 2 Safety Training)
- Develop secondary or complementary funding sources to GIA
- An actionable plan to grow trails or parks in all regions of Minnesota, and build new trails as funding allows, and making use of the MN OHV Strategic Mater Plan.

Dean Schliek, Running For ATV MN First VP

Experience in the sport of ATVing

ATV riding for me has been a lifelong journey. I received my first ATV at the age of 10 years old, and put many miles on it riding around my parents backyard as well as out on our hunting property. I now spend my free time sharing my passion with anyone and everyone in hopes of helping others enjoy not just the ATV experience but also the entire ATV community that I have grown to know and love.

Experience with ATV Minnesota

I have been a member of ATV Minnesota since 2012 and have attended many ATV MN events, including Ride & Roast, Ride & Rally, Legislative Summit, Grant-in-Aid workshops, Vision Conferences, and other ATV MN sponsored events. I have been a member of the communications team for years and have helped build the Minnesota Wheelin magazine, as well as helped manage the ATV MN social media account. With the communications team I have designed many event flyers, banners, and signage. I have also written many articles for the Minnesota Wheelin and e-newsletter. I have worked with David Halsey on building a large library of photos and videos that we use in many of our publications, as well as for the Minnesota DNR and Minnesota tourism publications. Most recently I took on the roll as a Regional Director and have attended the monthly board meetings as well as multiple area ATV MN club meetings to check in with clubs in my region.

Involvement with ATV Clubs

Since 2012 I have been working with various ATV clubs around my area as well as around the state. I have been a club member to a half a dozen different ATV clubs, and helped many more with various projects. Currently I am a member of Central Lakes ATV Club, Cuyuna Iron Range Riders, Over the Hills Gang ATV Club and Finland Snowmobile and ATV Club. Over the past 14 years I have helped clubs with trail maintenance, new trail construction, storm clean ups, club rides and events, Trail Ambassador rides, and youth ATV safety training. I have also attended many meetings on behalf of the clubs, as well as helped design and print promotional items, flyers, and banners for many club events throughout the state. Spent many hours promoting club involvement and pushed for new opportunities for community outreach with the clubs.

Reasons For Seeking Office

I am seeking this position because I feel like the sport of ATV riding is a vital piece to our lifestyle here in Minnesota. I would like to help be part of building lasting relationships with new riders, existing members, communities statewide, industry leaders, and legislators to help ensure that ATV riders have the right to continue enjoying the recreational opportunities we have, as well as continue to grow the sport in a responsible manner.

Personal Qualifications

Over my 20 year career as a construction boilermaker, I have spent a lot of time traveling the country, working on many complex projects. In 2006 I started my Pipefitter apprenticeship at Local 11 and Northwest Technical College in Bemidji. I later transitioned into the Boilermakers trade and graduated as a Journeyman Boilermaker, where I spent the last 8 years of my construction career in site supervision. Managing major construction project for clients like Xcel Energy, Minnesota Power, Cleveland Cliffs, U.S. Steel and many others. Managed nuclear reactor re-fuelings and oil refinery turnarounds. Many of these projects were long-term construction/maintenance projects that required a vast amount of planning and preparation, as well as EPA compliance and strict safety

guidelines. Good relationship building and clear communication were expected on all assets of these projects.

Founder of Minnesota ATV Riders. On March 25th of 2014 I took on the task of trying to build a community where riders could come together and share their stories, experiences and information with each other through the Minnesota ATV Riders. What started as a social media based community has grow into a non-profit organization that prides itself on sharing fun, responsible, and sustainable ATV recreation. Managing multiple social media accounts and building dozens of relationships with industry personnel.

Founder of Northern Off-Road Productions. Took on the dream of building a seasonal event that gets riders together to strengthen our ATV community. Building and maintaining dozens and dozens of relationships, and partnerships with industry partners, tourism bureaus, ATV clubs/organizations, and lodging destinations.

Vision for the sport of ATVing

My vision of ATVing in Minnesota is to see continuous growth in riding opportunities as well as promotion of safety and and involvement from riders, communities, and industry to work together and enhance the sport for all who want to enjoy it. I see trail improvements in the future, new trail development in more regions of the state, new stronger relationships built across all facets as well as working with legislators to protect our rights as ATV riders so many generations to come can continue to make lifelong memories.

Vision for ATV Minnesota

I would like to see new relationships formed, membership growth, and local clubs from the association become more involved and informed. I feel like many clubs and members feel like there is a disconnect with the State Association and

clubs. Build a better understanding of who we are as riders, what we provide to communities and the state, both economically and recreationally.

Nick Wognum, Running For Re-Election As ATV MN Secretary

Experience in the sport of ATVing

I am a lifelong ATV supporter and have owned three wheelers, straddle ATVs and side by sides. I have been active in starting the Prospector ATV Club and have served on the ATV MN Executive Board as Secretary since 2017.

Experience with ATV Minnesota

I have served on the ATV MN Executive Board as Secretary. In addition to taking the minutes at meetings I have also served on various committees, testified in St. Paul and advocated for trails in different parts of the state. Help-

ing at State events, changing the name to ATV MN, coming up with a new logo and redesigning the clothing we sell are some of the things I have helped with over the years.

Involvement with ATV clubs

I was one of the founders of the Prospector ATV Club and have worked closely with the Babbitt ATV and Snowmobile Club and the Voyageur Country ATV club for many years.

Reasons for seeking this office

I would like to see ATV riders be able to ride in the downtown of small towns with state highways in them. I would like to see funding increased for trail development and maintenance and I would like to see the definition of an ATV updated to reflect the world we live in today.

Personal qualifications that apply to the responsibilities of the office

I have nine years experience on the State Board and have served on many non-profit boards over the years, from ATV Minnesota to Prospector to historical societies and other community level organizations. I am a business owner and also serve as a township and fire department clerk.

Vision for the sport of ATVing

We need to have places for people to ride legally. That means having a funding system in place to build and maintain trail systems. We need to work toward putting more money into trails instead of into the bureaucracy in St. Paul. We need to update our state laws to reflect reality. People need to be able to ride close to where they live and in places where there are trails. That means being flexible in what we do!

Vision for ATV Minnesota

Our job as an organization includes lobbying for the best interests of ATV riders in Minnesota. We need to have an organization that communicates with members and gives them the best bang for their buck. We need to develop strategic partnerships and find ways to increase our membership so we can do a better job of representing Minnesota ATV riders.

R U Ready For Some R&R?

Now is the time to register your ride group for the Friday President's Ride and/or Saturday guided rides (with ride on your own option).

Plus reserve your lodging or camping (on-site or locally), sign up as a vendor, and be an event sponsor or donate to the auctions.

To get started, just tap the QR code with your smartphone camera, or go to atvmn.org and

tap the "Events" tab. You'll find everything you need, including a detailed schedule for the entire Ride & Rally.

Thanks To All The Early Sponsors Of The 2026 Ride & Rally!

60 of them!...sponsoring or donating auction items to the 2026 ATV MN State Convention/Ride & Rally, September 18-20, in Park Rapids. Your support is greatly appreciated.

To sponsor or donate, go to atvmn.org, tap the events page and use the sponsor link to get all the details and instructions.

Thanks!

Wanted: ATV Clubs To Host Ride & Roast in 2027 and 2028

ATV Minnesota, our state association, is looking for clubs that are interested in hosting the ATV MN Ride & Roast in 2027 and 2028.

This one-day riding event, usually the third weekend in May, has always been fun and popular. It's a great opportunity to connect people with your club, our state association and trails.

In past years, this event has attracted over 300 people and that number continues to increase. As the official event promoter, ATV Minnesota will share the profits and expenses, and help find sponsors to make this a profitable event for your club and our state association.

We will handle all online registrations, in-person registration the day of the event, website information, insurance and communication. The partnering club (or clubs) would be responsible for seeking local sponsorships, community support, planning & organizing guided rides, locating an appropriate venue, and obtaining any necessary permits.

We believe this event could be a great opportunity to support your club and our state association for an unforgettable weekend. If your club is interested in partnering to host a spring Ride & Roast next year or the year after, we would like to start the conversation. Please email a short description of why you would like to host the event and what makes your area a unique riding area. Send the email to atvmnoffice@atvmn.org. Thank you!

Ken Irish
